CHOIRMASTER AND ORGANIST CURED OF CATARRH BY TO-NI-TA.

Mr. H. W. Humphreys, Choirmaster and Organist of Grace Church Greenville, Cured of an Extremely Bad Case of Catarrh of Head by TO-NI-TA, Dr. Lorentz's Mucous Membrane Bitters.

Mrs. Anna Townley Says TO-NI-TA Cured Her of Throat and Stomach Troubles.

Mr. Humphreys is grateful for his won-erful cure and writes: "I want to say a word in praise of TO-NI-TA and of what it has done for me.
"For many years I had been a great sufferer from Catarrh of the Head and Turoat, and nothing seemed to bring me relief. Every change in the weather aggravated my trouble, and I became nervous about ever getting rid of it.

"I am choirmaster and organist of Grace Episcopal Church, Greenville, N. J., and lass winter, while preparing the heliday services, the church was cold and damp, most of the time without fire, and I contracted a cold which made my catarra so bad that it was almost impossible for me to continue my work.

"After much persuasion as I was skep-tical of all medicines, so many had failed, I tried TO-Ni-TA. A few doses greatly relieved me, and one bottle completely cured me."

"I am 73 years of age and for many years have suffered tertures with catarrh of throat and stomach. Could not keep my food down and was very weak. At times I would have smothering spells and thought each word would be my last. Nothing did me any good.

"I saw your advertisement and decided to try TO-NI-TA. It acted at once and two bottles completely cured me. I am strong and well and feel like a woman of 20." Mrs. Anna Townley, Struthers, Ohio.

We have thousands of just such letters from men and women in all walks of life who have been

cured by TO-NI-TA and say it is a Godsend to humanity.

humanity.

Write fully and in confidence to our doctors, as no letters are printed without the consent of the writers, and all your letters will be returned to you if you prefer.

TO-NI-TA is the wonderful discovery of Dr. Lorentz, the great specialist, and is used by him and his associates exclusively for the cure of catarrh in all parts of the bedy—head, throat, lungs, stomach, bowels, heart, liver, kidneys, bladder, female organs, etc.

Fractically all diseases begin with a catarrhal inflammation of the mucous membrane, or lining, of the organs and parts of the body, and a permanent cure can be effected only by beginning with the mucous membrane. TO-NI-TA is the only remedy which acts directly on the mucous membrane and cleanses, heals and strengthens it and drives out disease and tones up and invigorates the whole system.

Every TO-NI-TA testimonial is genuine, Every TO-NI-TA testimonial is genuine.

and the original letter may be seen at our coffice at any time.

It matters not how weakened, run down, nervous or sick you may be, TO-NI-TA will bring you back to health and strength and give you a new hold on life.

TO-NI-TA is guaranteed absolutely free from cocains and dangerous drugs, and can be given to children with perfect safety.

Sold by all druggists, or direct, \$1 a bot-

BEWARE OF SUBSTITUTES and imitations, Our attention has been called to a few cases where unreliable dealers have tried to sell some cheap, inrelieved me, and one bottle completely cured me."

Mrs. Townley lived in perfect misery for years. Two bottles of TO-NI-TA cured her. She says:

General state three to sell some cheap, infurious substitute for "just as good as" TO-NI-TA. Ask for TO-NI-TA and insist on the genuine. Dr. Lorentz's "Beautiful Story of Life" free to anyone who writes Lorentz Medical Co., Flatiron Building, New York.

"I have been afflicted with indigestion for five years. I could not sleep at night. I have tried every known remedy without effect, and am pleased to say that Eupersia Tablets have given me immediate relief, and I feel cured. You can use this letter in any way you see fit, so other sufferers can be equally benefited.

CALVE TO SING FOR CHARITY. Diva Will Give Her Services in

Aid of Nursery.

REFUBLIC SPECIAL New York, April 2-In aid of the summer home of the French Day Nursery, an interesting concert will be given in the Astor Gallery of the Waldorf-Astoria on the evening of April 11. Mme. Calve has offered her services, as she is greatly interested in the work of the nursery.

She will sing old French Provencal and Cevenal songs. The concert will be tre-ceded by a lecture in French, entitled "Les Femmes Victimes de la Revolution, to be delivered by Mile. Vlanzone.

The French Day Nursery is at No. 69 Washington Square South, and each day many children are cared for. Its summer branch is on Long Island, and the concert will no doubt contribute a handsome sum for the scason's work. Children who live in the tenements are given an opporti-nity of pussing several days at this sum-mer home at the senshore.

BROWNIE CLUB

No One Taller Than Five Feet Six Inches Will Be Allowed to Become a Member.

PRESIDENT TO BE SMALLEST.

Official Guard, Six Feet Three Inches in Height, Is to Protect Organization From Outsiders.

REPUBLIC SPECIAL.

Denver, April 2.-A "Brownie" club has been formed in this city. No one will be allowed to become a member who is more than 5 feet 6 inches tall, and the shorter the better, although the members state that there will be no limitation as to girth

The members are measuring one another to see who shall be president, for this club will choose its officers not by ballot, but according to size. The smallest man is to will choose its emicers not by blanch in according to size. The smallest man is to be president, the next smallest vice presi-dent, and so on. H. E. May is probably the smallest charter member of the club, and he is anxiously measuring his friends to see if he has a monopoly on the presi-

to see if he has a monopoly on the presidency.

One of the by-laws of the club is to be that all unmarried members of the club when they become benedicts must marry a maden at least 6 feet tail.

Any member joining the club who is still growing at the time of his affiliation is taken in only on approval, if he grows to be more than a feet and 8 inches tail he will be expelled. An official "yard-stick man" is to be elected, and it will be his duty to measure all doubtful ones at every meeting.

meeting.

The cub will have in its membership one large man. He must be 6 feet 3. He will be the official guard, and it will be his duties to protect members of the Brownie Club from outsiders at all their meetings.

Delayed Letter to St. Louis Man Describes Unique Ceremonies of Holy Week.

ALL BUSINESS SUSPENDED.

Parade of the "Dead Christ" Notable Feature of the Unusual Service in San Jose-Beautiful Women Take Part.

A letter from San Jose, Costa Rica, addressed to Bi Heffernan, day clerk at the New St. James Hotel, was just about one

year reaching its destination, The letter was written to Mr. Heffernan by a friend, who is interested in the Panama Canal. Why it was so long in its journey Heffernan is unable to understand. It bears, besides the San Jose postmark, one from the City of Mexico, so that it is probable that the letter was misdirected and lay undiscovered for several months in some remote post office.

Part of the contents of the missive are particularly interesting at this time, because they describe the Holy-Week service in San Jose. The writer had been in San Jose during the solemn ceremonies, and he wrote his impressions of them. According to him. Easter and the holy days prior to it constitute the greatest of all seasons in Costa Rica, and the celebration takes on the appearance of a St. Louis Velled Prophet's parade, although

evidently the Costa Rica performance is

more gorgeous. "I was here during Holy Week, the first time I ever happened to be in San Jose at that time. Their method of observing Good Friday is somewnat differ-

ent from yours. In the first place, all business is suspended, banks and business houses close, no trains are operated, no teaming is allowed, and one can't even rice horseback. If you want to go any place you must either go the day before, or, if you wait until Good Friday, you must walk. "Only the churches and saloons keep open. It would never do to close the sa-loons, for everyone in this country drinks. There are no exceptions to this rule.

saw a heurse like this one. It was in pure-gold finish and was one of the most beautiful and most magnificent things I have ever seen.

"After the hearse came the military band of sixty pieces, playing the dead march.

"The costumes wern in the procession were like pistures from dreamland or fairyland. They were not made of cheese-cloth and tinsel, as is the rule in ordinary parades in America, but from the white on the children to the velvet garments of the Virgin everything was of the finest texture.

"If you are a man and happen to be in a street where a parade of this kind is passing, take off your hat and keep it off, or you are liable to get it knocked off."

"There are many heautiful women in the mother of the finest liable to get it knocked off."

"There are many heautiful women in the mother of the thou canst discover them.

is passing, take off your hat and keep it off, or you are liable to get it knocked off."

"There are many beautiful women in Costa Rica, and I never saw so many as on Good Friday. They were all out and dressed in their finest clothes. They follow Paris and New York styles closely in the manner of fashions."

GEYSER WAS BORN WITH EARTHQUAKES.

New Wonder Has Appeared Near Walmanyu, on Site of What Was Once a Lagoon.

REPUBLIC SPECIAL

San Francisco, April 2.—The latest selentific budget from New Zealand brings existence there without warning and was first noticed in activity on a spot where a pedestrian a few hours before had stopped to admire an innocent-looking lagoon surrounded by gently sloping banks of tender verture.

Attention was first drawn to the new-

Attention was first drawn to the newborn wonder by a salvo of earthquakenmore than thirty shocks in fifteen minuten-nature's royal salute to the young
recruit of geyser land.

This latest addition to the wonders of
nature lies a few miles from Waimanyu,
the greatest geyser in the world, weird in
its surroundings and grotesquely whimsical in its eruntions, of which the oldest
Maori and the most experienced guide can
give no definite idea. Some days the displays are light and foamy and of moderate
height, fifty to one hundred feet, of frequent occurrence, regular duration and
without noise.

Then there are days when the surface of Then there are days when the surface of

without noise.

Then there are days when the surface of the crater, which covers close to an acre, takes on a guise of placidity and is so free from metion of steam that a passing observer might sould at the tules of its vagaries. These peculiar phases generally precede terms of great violence, when the monster explodes with a terrific noise and beliches aloft to heights as great as two thousand feet black water, mud and stonea, sometimes directly perpendicular and sometimes apreading three hundred yards from the crater's lips.

The new geyer is not only a neighbor, but a smaller copy of the Walmanyu, which only a few months ago was the scene of a distressing tracedy.

Two girls naed 19 and 20 years, good looking, happy and gifted with wealth, were visitors with their mother to Walmanyu. They had traveled through a considerable section of the thermal belt, had been rowed in Maori manned boats across the boiling lake of Rotomahana and had traversed Taramera, wearing on its desolate face the ravages of the eruption in 1885. Excited by all they had seen, fascinated by the ease and apparent safety of their guides, they were overwhelmed without warning and perished within sight of their distracted mother, who stood watching and waiting on the heights above.

The finest views of this wonderful geyser can be had from noisits of perfect safety, and the Government has carefully marked and shut off the area of danger. On the day of a big "shor" at this reyser the steam often arises to a height of 5,000 feet, and as it shows against the background of pumice crusted Tarawera, often capped with snow, the scene is one of grandeur.

It is on such occasions that the tourist listens with interest to the Maori explanation of the eruptions, the resconse of Rua-aw-Moko, end of the volcanes, who first lit them to warm himself while waiting to take vengeance on a land-crabbing Tohnings, and whose enemies have ever since been punished for current transgressions by upheavais from the shrine of the irate fire god.

Another Slaughter in Prices, as We Must Realize Cash at Once.

The Goodyear Mackintosh and Rainceat Company, for forty years manufacturers and importers of high-grade mackintoshes and craveneties for mer, women and children, are forced to retire from business. They have rented temporarily the large store on the northeast corner Broadway and Pine for this special sacrifice sale. Their immense stock, consisting of high-grade mackintoshes and cravenette raincoats, which were made up in the very latest up-to-date styles for the season of 1904, must be disposed of at once at some price. In this stock the assortment is greater and more complete than in all other stores in St. Louis combined. You must remember that we are exclusive importers of the famous Priestley cravenette raincroof cloth, which we have needed in all other stores in St. Louis combined. The Rev. Father Marshall L. Bearman, S. J., has returned to the St. Louis Unfversity to remain several weeks before resuming his course of lectures, and arraignment of socialism, which, he says, is making great headway in the Bast, Chi-Father Boarman considers the present ing to the destruction of human society

and a grave problem which must be solved effectually while it is in its inclpiency. He has prepared a printed indictment of "Socialism," which is confined to a dis-cussion of scientific socialism, Scientific socialism, be holds, makes "Social Democracy" the clarificate of wearth and ad-juster of social conditions.

In his handling of scientific socialism Father Boarman says: THE INDICTMENT. "Viewing Socialism in its definition, in its causes, in its leaders, in its principles, and

in its plan of compariso, we pronounce So-cialism false, dangerous and absurd; and to make this charge evident we bring proof for each of the twelve counts in the following indictment:

"Socialism is destructive of human so-ciety; ignores the chief alm of life; is unjust towards owners of private property; robs for public ownership; unnecessarily seeks public reactions. seeks but a ready to the relationship between a false view of the relationship between capital and labor; is not a friend of the workingman; is the death-knell of liberty; is a menace to woman; is a blight upon youth; and a deadly foe to all Christians.

youth; and a deadly foe to all Christians.

"Socialism is destructive of human society, if it holds a false view of the ve y nature of human society. But it holds a false view.

"Socialism considers human society as a collection of men evolved equal and independent; like so many eggs in a box, or so many bricks in a pile.

"But the true nature of society is organic; and society may be compared to the human body, in which are found a variety of members, unequal in value and necessity, but all animated by the same soul, and all working for the good of the whole being "This inequality is begotten by nature

This inequality is begotten by nature is with who does not remember the story of the hands and feet that went on a strike against the stomach, which they considered a capitalist and a plutocrat? It was only when they becam to waste away that they recognized that the God of nature had ordained all thins wisely.

SOCIALISM'S STEPS. SOCIALISM'S STEPS. "Socialism erects a short stairway to Utopia. It contains but three steps. The first step is revolution; the second is

public ownership of land and capital, and

the third is forced equal distribution of goods and social conditions—and then. Utapial—with its golden floors and jasper walls, with reace in the absence of state repression, with pienty in the presence of eathly goods with happiness in the complete satisfaction of natural instincts.

"But if we examine the steps of this stairway, we find that they lead to the destruction of human society. Socialism is revolution against monarchies in Europe, against Republics outside of Europe. In Europe it praises Republics; in Republics it undermines the Constitution. "Socialism opposes the best interests of publics it undermines the Constitution.

"Socialism opposes the best interests of the workingman. His best interests are constant work, fair wages, and contentment. When these happy conditions are present, Socialists have no hope of arousing the masses to revolt against society; and hence they enceaver to break down these conditions for the purpose of creating widespread discontent, and of arousing hatred between capital and laborabetween the masses and the classes. Socialists were long open in their antagonism to workingmen; but of late years, like sirens of evil, they sing soothing songs to them, and enchant them with the hope of impossible wealth and happiness.

PARIS TO WIN LABOR.

FAILS TO WIN LABOR. "Some few labor organizations, especialthe maelstrom of Socialistic politics, and have become recruiting stations for the proparanda; but, thanks to the intelligence and natriotism of the great body of its members. Socialists have failed, both by inside boring and outside pressure, to gain over that numerous and magnificest body of workingmen united as the American Federation of Labor, under the leadership of Samuel Gompers and John Mitchell.

"Socialism is a blight upon children, if it tends to demoralize them, but that it does so is evident from the plans proposed for their generation, segregation and education. They are to be the offspring, not of true magriage, but of sex founders, and are to be thrown upon the social industry for motherly affection and fatherly care. They are to be herded in communal schools or the observable of Rousseau. They are to be freed from all repression given common doses in production and pleasure-seeking, that God is a myth, religion a fraud man but a developed ane, and that freedom from skin disease is the only propaganda; but, thanks to the intelligen

CUPID FINALLY VICTORIOUS.

Breach-of-Promise Contestants Marry and Case Ends.

REPUBLIC SPECIAL. Milwaukee, Wis., April 3.-After five asked the hand of Ida E. Baler in marriage. Seven hundred and three days later he called the engagement off. When twenty-two more days had passed he was defendant in a \$5,000 breach-of-promise

He played that role for two years, four months and three weeks. In Waukegan, Ill., he became a benedict. Judge Will-iams then dismissed the case of Baier vs. Rathelsberger. It was done at the request of a blushing bride, Ida E. Baier Rathels-

ERPENT

The worst disease the world has ever known, and the greatest scourge to the human race, is Contagious Blood Poison. One drop of the virus of this loathsome disease will pollute and vitiate the purest and healthiest blood, and within a short time after the first little sore appears the system is filled with the awful poison; the skin breaks out in a red rash, the glands of the groins begin to swell, the throat and mouth become ulcerated, the hair and eyebrows drop out, and often the entire surface of the body is covered with copper-colored splotches, pustular eruptions and sickening-looking sores and abscesses. Many a

man has been cut down in the prime of life, or his health so impaired by this vile disease that usefulness is destroyed, and he becomes a burden to himself and an object of pity to the rest of mankind. Contagious Blood Poison is the most annoying, humiliating and degrading of all diseases. It is as treacherous and elusive as the serpent. Under the

mercury and potash treatment all external evidences of it may disappear, and the victim misled, be buoyed up by false hopes of a cure, while the disease may even then have fastened its fangs in some vital spot within the system, where it is doing its destructive work unseen. Mercury has arrayed against it thousands upon thousands of physical wrecks and chronic invaand their systems saturated with no matter how severe the case may be. these powerful drugs, only to be Greensburg, Pa., June 16, 1908. harassed by constantly returning

BLOOD POISO

I am compelled by a sense of gratitude to tell you of the great good your remedy has done me. Among other symptoms I was severely afflicted with Rheumatism, and got almost past going. The disease got a firm hold upon my system; my blood was thoroughly poisoned with the virus, as characterized by the usual symptoms. I lost in weight, was run down, had sore throat, eruptions, splotches and other evidences of the disease. I was truly in bad shape when I began S. S. but the persistent shape when I began S. S. S., but the persistent use of it brought me out of my trouble, safe and sound, and I have the courage to publicly testify to the virtues of your great blood remedy, S. S., and to recommend it to all Blood Poison

lids who have been dosed for years sufferers, sincerely believing that if it is taken according to directions and given a fair trial, it will thoroughly eliminate every particle of virus, JAMES CURRAN.

symptoms and confronted with unmistakable traces of blood poison years after. As long as your blood is tainted with this awful virus you are a source of infection and danger to all who come in contact with you, and your children will carry in their veins the same dreadful contagion. As long as there is life in the serpent there is danger in its fangs, and so long as any signs of Contagious Blood Poison remain there is danger of infection. Safety lies in crushing out the life of this loathsome disease and killing the serpent, and no remedy known does this so thoroughly and permanently as S. S. S. It is an antidote for this peculiar virus that spreads through the system, defiles the blood and contaminates all

healthy tissues and threatens every organ and part of the body.

S. S. S. contains no mineral of any description, but is guaranteed entirely vegetable, and we offer \$1,000 for proof that it is not just as we represent it to be. It leaves no bad after-effects, but purifies the blood and at the same time builds up your general health. In chronic or long-standing cases of blood poison, where the stomach and digestion have been damaged by the use of minerals, S. S. S. will prove an excellent tonic and appetizer and helpful in restoring strength and activity to all parts of the system. Kill the serpent, crush out its life, or you are apt to feel the bad effects of the disease all your life. If you will write us fully about your case, our physicians will gladly advise without charge, and mail you a copy of our home-treatment book telling all

about Contagious Blood Poison, its different stages and symptoms, and a lot of interesting information about this formidable and much-dreaded disease.

THE SWIFT SPECIFIC COMPANY, ATLANTA. GA.
